"Adults Only" - New Book by Sid Dinerstein

West Palm Beach, FL- “Grow up!” says Sid Dinerstein, one of the most popular and prominent local political party leaders in the state of Florida. The chairman of Palm Beach County’s Republican Party says the biggest problem with politics in America is the “blame game,” played with the sole objective of scoring points, not solving problems. Rudeness has replaced civility in our political discourse. According to Dinerstein, too many people love their Party more than their Country.

Regardless of politics or party affiliation, most everyone in America knows the country has problems and Dinerstein insists that the solutions lie in the fact that we need to develop an “Adults Only” approach to solving them. Dinerstein lays all partisan politics aside and succinctly describes where America went astray from her intended path and how to get her back on track in his new dynamic book aptly titled, *Adults Only: For People Who Love Their Country More Than Their Party*.

There are no political agendas set forth in Dinerstein’s book. It is straightforward, written from the heart, filled with the wit that has become known as *Sidisms* by those who love and respect him, teeming with common sense, and driven by highly specific, practical solutions to the major issues confronting America in the 21st century like healthcare, immigration, national debt, term limits and the environment. As he points out, Democracy is not a spectator sport – we all need to actively participate, but we have to first grow up, adjust our attitude, and then change how we conduct politics.

Adults Only is an extremely informative, highly entertaining, easy to read book with specific solutions to the huge problems facing America today. But they're not for the faint of heart. They are for "Adults Only!"

The book will be available in the spring of 2008. Pre-release orders are now being accepted and may be obtained by contacting StarGroup International at (561) 547-0667 or email info@stargroupinternational.com.
